0-DAY+ CTMD+ Expansion Chainsystem! v11 - Products, features and Benefits. Simatic Step 7 Basic or Professional Tons of new features, plus new questions in basic and professional V11. This 4.0 upgrade to the safety process programming platform step 7 solution provides again even more features to help your organization comply with and go from the TIA Portal. Simatic Step 7 V11 will bring new features such as: With the continuous update to the TIA Portal, all steps in the planning, programming and configuration processes are now included in the portal. With the continuous update to STEP 7 Basic and STEP 7 Professional V11, the new TIA Portal version and the TIA Portal step 7 Step 7 Basic and Professional Step 7 Basic and Professional, SIMATIC Engineering Solutions Professional V11 SP1 The new TIA Portal version and the TIA Portal version Step 7 Pro have been compiled with specific support for using the simulation and test services of the new TIA Portal update in the engineering process. The TIA Portal V11 is integrated in the STEP 7 technical environment. Please note: The Step 7 V11 product is always released simultaneously with the TIA Portal V11. This means that the installation of the STEP 7 V11 will proceed with the installation of the TIA Portal V11 and can be performed on top of the existing STEP 7 installations. SIMATIC Software, certified and authorized partner of Siemens in the STEP 7 area is communicating the release of the new TIA Portal for STEP 7 V11 at the same time of STEP 7 Basic SP1/Step 7 Professional V11. Use of this service is made possible thanks to a project financed by the European Community with a duration of 8 years. In order to benefit from the free test service of the TIA Portal, all users of STEP 7 and STEP 7 Basic or STEP 7 Professional V11 must follow the instructions found in the TIA Portal version TIA Portal. If you have any technical question or need any support on TIA Portal V11, please contact your trusted STEP 7 Simatic Partner. What is the difference between STEP 7 and TIA Portal? TIA Portal is the new TISafetyPlus, Engineering Portal. It is an open portal solution based on SAP, which integrates the STEP 7 solutions and the TIA Portal Technology. The TIA Portal solution is provided by the TISafetyPlus engineering company and is designed to cover the needs
